

K-SEAL ACID PAVING CLEANER

DESCRIPTION.

Kingfisher PAVING CLEANER is a high strength, acid based surface cleaner formulated specifically for cleaning unsightly discolourations, ingrained dirt, cement and mortar splashes and other difficult to remove stains from a variety of surfaces, including.... Brick work, paving, concrete floors; block paving, crazy paving etc. The product is not suitable for use on limestone or marble.

APPLICATION

For general cleaning, dilute 2 or 3 : 1 with clean water.

Remove excess dirt, mortar etc with a stiff yard brush. Protect metal surfaces and paint work with polythene sheets and tape.

Apply liberally to the surface and allow to stand for around 10 to 15 minutes (scrubbing occasionally with a stiff bristled yard brush) – do not allow the area to dry out.

Agitate thoroughly with the brush and then hose gently with large amounts of cold water.

For stubborn contaminants, Kingfisher PAVING CLEANER can be applied "neat" to the affected area and then agitate / rinse process repeated.

IMPORTANT NOTES

Dilute only in a plastic bucket or container

ALWAYS add the product to the water **NEVER** the water to the product.

Before applying to the whole area always test on an inconspicuous part of the area first.

COVERAGE.

3 – 5 square metres per litre.

PACKAGING / SHELF LIFE.

Kingfisher PAVING CLEANER is supplied in 5 litre and 25 litre plastic containers which should be stored in cool, dry conditions at temperatures between + 5 °C and 30°C.

The product will have a shelf life of 24 months when stored according to the manufactures instructions
