

K-SEAL BIO-CLEANER

DESCRIPTION.

Kingfisher K-SEAL BIO CLEANER is a ready to use active biocide, designed to give quick and efficient removal of all algae, moss or lichen from any external surface. An ideal preparation prior to the application of any of the K-Seal range of treatments for patios, paths or driveways.

PREPARATION.

No preparation is necessary providing the surfaces to be treated are fairly dry and free from puddling.

APPLICATION.

Kingfisher K-SEAL BIO CLEANER should be applied to the surface undiluted, using a Brush, roller or low pressure spray. The surface should be left for one hour and then washed off thoroughly with clean water using either a brush or hose.

COVERAGE.

One 5 Litre container of Kingfisher K-SEAL BIO CLEANER will treat approximately 20 sq. metres, depending on the severity of the growth.

HEALTH and SAFETY PRECAUTIONS.

This product is classified as an irritant and users should wear protective clothing, impervious gloves and eye protection when spraying. Repeated/prolonged contact with the skin may cause sensitisation. In case of contact with skin or eyes rinse the affected areas with copious amounts of clean water. Should irritation persist seek medical attention.

Keep children and pets away from treated areas until the Kingfisher K-SEAL BIO CLEANER has been washed off.

Protect from frost.

Further Health and Safety information on this product is provided in the MSDS, copies of which may be obtained from the Kingfisher Technical Dept. Tel 01229 869100 or Fax 01229 869101.
