

## **Paving and Patio Sealer (Water Based)**

### **DESCRIPTION**

A premium grade, eco-friendly water based solution designed to protect patios, stones and brick blocks from water penetration, oil/petrol/grease spillages, will reduce general grime and dirt build up. Kingfisher Patioseal has a built in protector to help reduce the growth of any further moss/algae/lichen, and on application will slightly enhance the original colour of the stone before sealing.

### **PREPARATION**

Power wash/scrub down all surfaces prior to any application of the Patioseal. Apply Kingfisher Bio-Cleaner to any surface that has had moss, algae or lichens on it, so as to kill any roots/spores still in the substrate.

### **APPLICATION**

This product is ready to use. Shake well before use. Kingfisher Patioseal can be applied onto dry or slightly damp surface with brush or roller, ensuring no ponding occurs. For best results apply 2 coats, allowing 3-4 hours between coats. DO NOT APPLY in conditions of high humidity or when rain is imminent. (Protect from rain until fully dry).

### **COVERAGE**

Approx 4 sq metres per litre (depending on porosity) per coat.

### **PACKAGING/SHELF LIFE**

Kingfisher Patioseal is available in 5 litres and 25 litre plastic containers. Product should be stored between 5°C and 30°C in a frost free environment in its original tightly closed containers. Shelf life 12-18 months unopened.

### **PROTECT FROM FROST**

### **HEALTH AND SAFETY**

Kingfisher Patioseal is a non hazardous water based emulsion. Protect eyes and skin from splashing. Should splashing occur, wash affected areas immediately with soap and water.

For further Health and Safety information on this product please refer to the Kingfisher Safety Data Sheet, copies of which are available from the Kingfisher Technical Dept. Tel. 01229 869100 or Fax 01229 868101.
