

We wanted to share a few words with our Kingfisher community about the devastating events that are happening in Ukraine.

As a consequence of the ongoing invasion, a desperate humanitarian crisis is unfolding. It's heart-breaking for the world to be witnessing, but it's completely unimaginable for those families and children who are experiencing it.

Our hearts and thoughts go out to the people of Ukraine and all those affected. In times like these, we believe in helping people who need it the most, and that's more important now than ever.

Kingfisher Building Products has donated to the British Red Cross to support their incredible efforts in aiding families and children who are suffering so terribly.

The work they're doing is extraordinary.

The Red Cross are distributing food and hygiene parcels, helping evacuate people with disabilities and providing first aid training on the ground in Ukraine and in bordering countries.

If you would like to find out more information or make a personal donation to their Ukraine Crisis Appeal.
